CODICIS JURIS CANONICI FONTIUM
TABELLAS

Codicis Iuris Canonici canones eorumque fontes tam pro explicandis laboribus scientificis quam pro ipsius vitae practicae commoditate sub diversis respectibus collecti in hisce 'fabellis prostant.

1. - In Tabella *A* omnes Codicis Iuris Canonici canones cum fontibus comparantur. Et quidem:

Num. I Codicis Iuris Canonici 854 canones (eorumve paragraphos) refert, qui fontibus carent, qui proinde vel novum ius statuunt, vel ius consuetudinarium scriptis iam redigunt, vel demum nullam legem proprie dictam continent, sed aliquam iuridicam Codicis materiam introducunt, simplicem eiusdem materiae divisionem exhibent ad aliosve canones lectorem remittunt. Ex qua Tabella cuique patet Codicem Iuris Canonici, praeterquam quod veterem disciplinam iuridicam — quatenus ipsa conservanda videbatur — systematice reproduxerat: ubi antiqua disciplina deficeret, in diversis suis partibus tum ratione materiae tum ratione formae pro rerum temporumque adiunctis diversa mensura novum quoque ius condidisse.

Num. II studiosos viros remittit ad Codicis Iuris Canonici canones (eorumve paragraphes), qui ex toto vel ex parte fontibus ex antiquo iure desumptis et in eiusdem Codicis editione cum notis ad paginarum calcem apposis nituntur, quique institutum iuridicum exhibent, quod uberius aut minus ubere apud maiores nostros excultum erat.

2. In 'fabella *H* omnes 10506 Codicis Iuris Canonici fontes singillatim enumerantur et in 26.000 casuum cum eiusdem cano-
nibus (eorumve paragraphis) comparantur. Quorum quidem

fontium copia velut ad oculos demonstrat antiquam sapientiam juridicam, ad quam pro redigendo Codice Iuris Canonici toties recurrendum erat. Ostendit enim singulorum fontium valorem iuridicum, propter quem ipsi maiorem minoremve in novum ius exercent influxum. Ostendit etiam, quanta cura in Codice Iuris Canonici redigendo ius antiquum, prout licuit, conservatum fuerit.

Num. I ex antiquo Corpore Iuris Canonici 3304 fontes exhibet, qui sive in tribus Decreti Gratiani partibus (1441), sive in quinque Decretalium collectionibus (1863) reperiuntur, quique e Gratiani Decreto consueta, e Decretalibus autem breviori forma citantur.

Num. II fontes 293 ex 11 Conciliis Generalibus collectos refert, eosque — excepto Sacro Concilio Tridentino — operis «Codici Iuris Canonici Fontes» numeris distinguit. Verum complures adhuc fontes ex Conciliis particularibus et generalibus desumpti reperiuntur sive in antiquo Corpore Iuris Canonici (Tabella A, η. I), sive in Romanorum Pontificum legibus (Tabella B, η. III), prout in Tabella C, n. III, IV referuntur.

Num. III fontes e 67 Pontificum legibus colligit 704, eosdemque pariter operis «Codici Iuris Canonici Fontes» numeris distinguit. Complures tamen fontes e Romanorum Pontificum legibus desumpti reperiuntur in antiquo Corpore Iuris Canonici (Tabella B, η. I), quaedam vero SS. Dicasteriorum Romanae Curiae acta (Tabella B, η. IV) ad eorundem Pontificum leges propius accedunt, quemadmodum Tabella C, η. V docet.

Num. IV simul 5751 fontes e singulis Romanae Curiae Dicasteriis collectos, numerisque in opere «Codici Iuris Canonici Fontes» designatos, itemque fontes e variis eiusdem Curiae Romanae regulis et ex Vicariatus Urbis actis exhibet. Quaedam autem istorum Dicasteriorum leges in Romanorum quoque Pontificum constitutionibus prostant, prout eadem in Tabella C, η. VI enumerantur.

Num. V fontes complectitur 454 e quattuor libris liturgicis desumptos, prout ipsi libri ante Codici Iuris Canonici promulgationem publici iuris erant. Brevitatis vero gratia fontes e Ri-

tuali Romano excerpti breviori forma, ceteri modo consueto citantur.

3. – In 'Tabella G Codicis Iuris Canonici fontium auctores seu legislatores enumerantur S. Scriptura cum Glossis (η. I). Canones Apostolorum (η. II), 110 Concilia particularia (n. III), 2c Concilia Generalia (η. IV), 154 Romani Pontifices, quorum quibusdam etiam quattuor libros liturgicos debemus (η. V), porro Curiae Romanae 21 Dicasteria Sacra cum Vicariatu Urbis (η. VI), quatenus ipse eadem, qua Sacra Romanae Curiae Dicasteria, Romanorum Pontificum auctoritate leges ferebat, itemque 13 SS. Patres (η. VII), 24 Scriptores Ecclesiastici (η. VIII), n Auctores Collectionum legum ecclesiasticarum ipsaeve Collectiones (η. IX), 3 antiqui libri liturgici (η. X), 13 Auctores Collectionum legum civilium ipsaeve Collectiones (η. XI), complures denique fontes incertae originis (η. XII). Quod tamen ipsos legum Auctores attinet, sive de S. Scriptura eiusve Glossis agatur, sive de SS. Patribus, sive de Scriptoribus Ecclesiasticis, sive tandem de Auctoribus Collectionum legum ecclesiasticarum et civilium de ipsis Collectionibus: eorum documenta itemque fontes incertae originis nonnisi sub specie legis ecclesiasticae referuntur, seu quatenus eadem in aliqua lege ecclesiastica continentur, vel ut aiunt — *canonizantur*.

Quod iam in specie fontes attinet ex antiquo Corpore Iuris Canonici desumptos, animadvertendum est istorum auctores seu legislatores persaepe incertos, persaepe vero uon cos esse, quos idem Corpus Iuris refert. Quod quidem corruptioni nominum sive personarum, sive locorum, itemque errori compilatorum et transcribentium plerumque tribuendum est. Pari modo propter verborum similitudinem vel propter diversas partes, quibus quidam fontes constant, iidem pluribus quoque tribuuntur auctoribus. Nos in 'Tabella C omnes istos auctores indicamus sive absolute sive cum signo interrogationis (?), Ictoremque ad iuris consultos et historiographos in hac materia remittimus.

Ceterum monemus in hac 'Tabella C fontes iisdem auctoribus adseribi, quibus modo superius explicato in antiquo Corpore Iuris Canonici adscript! sunt, quin de eorundem authenticitate

iudicium feratur. Valorem autem iuridicum in Collectionibus authenticis plenum, in Collectionibus vero non authenticis cum tantum habent, quem haberent, etiamsi in Collectione non repirentur, sive sint fontes autentici, sive non sint, nisi hi ultimi ius consuetudinarium spuria lege scripta referant.

Quandoque idem fons in pluribus Auctorum seu Legislatorum Tabellis occurrit sive, quia quaedam antiqui Corporis Iuris Canonici capita vel canones e pluribus auctoribus seu legislatoribus hauserant, sive quia diversis Conciliis, Pontificibus, Auctoribus adseribuntur, sive quia quaedam Romanorum Pontificum leges in Conciliis latae sunt, sive quia nonnullae Sacrorum Curiae Romanae Dicasteriorum leges modo peculiari a Pontificibus confirmatae reperiuntur, sive demum quia quaedam SS. Dicasteria olim cum aliis connexa fuerunt.

Plura Concilia particularia in eadem civitate habita persaepe ab aliis aliter numerantur. Pari modo tempus, quo Concilia particularia celebrata sunt, aut Romani Pontifices regnarunt, fontiumve Auctores vixerunt, ab aliis aliter refertur, aut plane incertum est. Quodsi eiusdem nominis Concilia particularia vel ipsi Romani Pontifices sine ulteriore numeri temporisve determinatione referantur (e. g. Concilium Toletanum, Gregorius Papa, etc.), fons incertae originis reputatur, quasi qualibet Auctoris indicatione careret, nisi ex ipso sermonis contextu vel aliunde dubium resolutum sit.

Ex hac Tabella admirabilis etiam influxus deprehendi poterit, quem singuli fontium Auctores seu Legislatores in hodiernum Codicis ius exercuerunt.

4. – In Tabella I) praemittuntur fontes, qui ad omnia totius orbis terrarum loca referuntur (n. 1), quique leges generales continent. Eisdem subsequuntur fontes, qui singulas mundi partes concernunt, prout istae partes geographice et politice tempore promulgationis Codicis Iuris Canonici designabantur (n. II), legesque Principis obtinebant sive generales sive particulares. Hisce ultimis ii quoque fontes adiunguntur, qui in genere ad plures, *nullius* Dioeceses referuntur, aut leges exhibent, quae incertis locis datae sunt,

Textus istorum fontium etiam ex antiquo Corpore Iuris Canonici desumptorum ut plurimum clarus est et facile intelligitur. Nomina vero locorum adeo interdum corrupta sunt aut orthographia varia, ut alii codices alia atque consimilia referant nomina, quorum cum neutrum alteri praeferri certo possit, libera cuique errandi facultas relinquitur, eo vel magis, quod neque contextus dubia resolvit. Nonnunquam porro locorum nomina incompleta, vel non sufficienter determinata reperiuntur, neque ex ipso fontium contextu erui potest, de quonam revera nomine agatur (ex. gr. *Viennen.*, *Nullius S. Martini* etc.). In eiusmodi casibus leges in fontibus exhibitae referuntur, quasi destinatae fuissent locis incertis.

Ex hac Tabella hinc mirum in modum arguitur bis millenaris Christi Ecclesiae catholicitas iurisdictionisque Sedis Apostolicae generalitas, cui fontibus testibus omnia loca subiecta fuerunt subiectaque manent, inde vero certus influxus patet, quem in legislationem et regimen Ecclesiae diversa loca seu diversae partes Ecclesiae exercuerant, quatenus suis causis suisve legibus particularibus a Principe leges provocabant sive generales sive particulares.

Quoniam vero saeculis labentibus plurimae respublicae natae sunt et interierunt, diversis temporibus Provinciae, Dioeceses, Civitates politice ad diversas sane respublicas pertinebant. Ut igitur hisce mutationibus non obstantibus quilibet easdem facile in hac Tabella reperire valeat, in Tabella *F* locorum nomina alphabetico online enumerata prostant.

5. Quamvis leges, quae, Codicis Iuris Canonici fontes sunt et in Tabella *I*) collectae enumerantur, non ipsis locis, sed personis ad normam can. 13, 14 in eisdem commorantibus latae sint, tamen in peculiari Tabella colligendi videbantur fontes, qui iam in suo quisque titulo expressis verbis ad certas ac determinatas personas sive physicas, sive morales referuntur. Qui tamen fontes secundum loca territorialiter dispositi enumerantur. Itaque in Tabella *E* fontes imprimis exhibentur, qui leges universales continent, quae ad omnes personas sive physicas sive morales collegiales referuntur (η. I). Ipsis subsequuntur fontes, qui diversis orbis terrarum

locis Clericorum, Religiosorum Laicorumque personas físicas et morales collegiales respiciunt (nn. II-IV), quive omne genus Ecclesiae ritus orientales concernunt (η. V), sive leges referant universales sive speciales. Ceterae leges, quae personas sive físicas sive morales concernunt, reperiuntur inter leges, quae singulis Dioecesibus, Civitatibus etc. datae sunt et in Tabella locorum enumerantur.

Quod de nominum corruptione aut insufficienti determinatione ad Tabellam *I*) superius dictum est, personarum quoque nominibus applicari debet.

Pari modo ea, quae de bis millennari Sedis Apostolicae jurisdictione deque partium in totius Ecclesiae legislationem influxu ad eandem Tabellam *D* monuimus, valent etiam de personis, quae in hacce Tabella enumerantur, quaeque leges sibi provocabant Principis sive universales sive speciales.

Demum notandum est personas tam físicas, quam morales temporum decursu sorti politicae subiectas fuisse locorum, ad quae modo iuridico pertinebant. Quarum quidem personarum nomina ope Tabellae *F* facile reperiri poterunt.

6. – In Tabella *F* ordine alphabetico referuntur nomina locorum et personarum, de quibus in Tabellis *I*) et *E*. Maioris commoditatis gratia haec Tabella ad huiusce voluminis columnas Lectorem remittit.

7. – In Tabella *G*' modus indicatur practicus, quo fontium materia seu argumentum ope Indicis materiae Codicis Iuris Canonici facile reperiri poterit, quin opus sit eundem Indicem in hac Fontium editione veluti repetere ac reimprimere.
